

How to Register a computer on the DBU Network

Connecting to a DBU Access Point:

1. Right-Click the wireless connection icon  located at the bottom right of your task bar.

You should now see a menu similar to the one below.

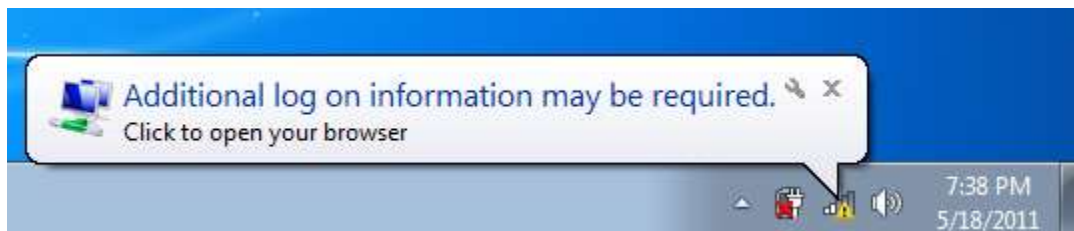

2. Click on the DBU wireless network connection.

If you do not see the DBU wireless network, click the **Refresh** button 

3. Click 

After your computer connects to the DBU wireless network, you may see the following message:

Accessing Wireless:

1. Open your Internet browser. (The DBU Technology staff strongly recommends using Mozilla Firefox.)
2. After your browser opens, you should be redirected to the following page:

 I accept the terms of use'. A 'Log In' button is centered below the fields. At the bottom, there is a note: 'If you need help with registering your device, please contact Information Technology by calling 214-333-5500 or sending an e-mail to support@dbu.edu.'"/>

Register Your Device

* Username:

* Password:

* Terms: I accept the terms of use

* required field

If you need help with registering your device, please contact Information Technology by calling 214-333-5500 or sending an e-mail to support@dbu.edu.

Note: If this page is not displayed, you may access it by manually typing in **10.128.2.15** into your browser's address bar.

If you receive a message saying "This Connection is Untrusted" when using Firefox, follow these steps:

1. Click "I Understand the Risks"

This Connection is Untrusted

You have asked Firefox to connect securely to ██████████, but we can't confirm that your connection is secure.

Normally, when you try to connect securely, sites will present trusted identification to prove that you are going to the right place. However, this site's identity can't be verified.

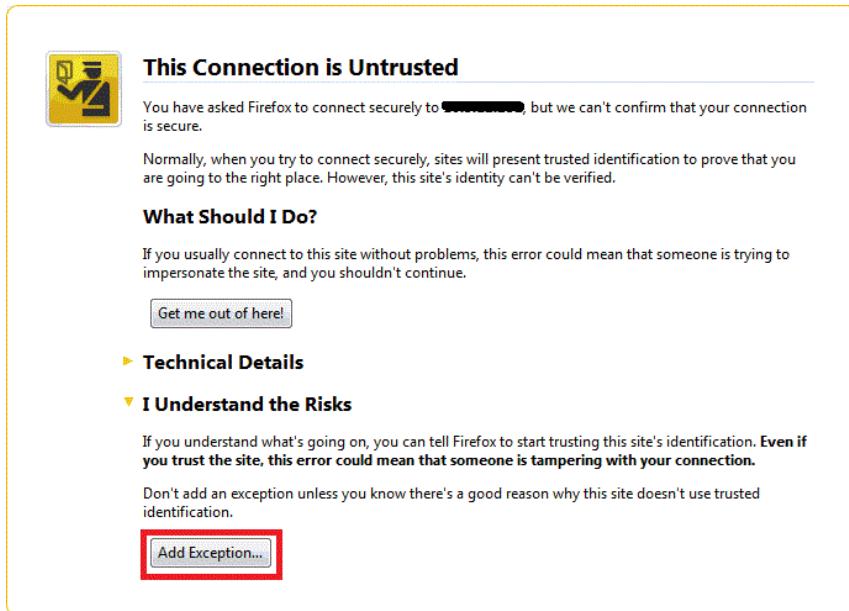

What Should I Do?

If you usually connect to this site without problems, this error could mean that someone is trying to impersonate the site, and you shouldn't continue.

► **Technical Details**

► **I Understand the Risks**

2. Click "Add Exception..."

This Connection is Untrusted

You have asked Firefox to connect securely to [redacted], but we can't confirm that your connection is secure.

Normally, when you try to connect securely, sites will present trusted identification to prove that you are going to the right place. However, this site's identity can't be verified.

What Should I Do?

If you usually connect to this site without problems, this error could mean that someone is trying to impersonate the site, and you shouldn't continue.

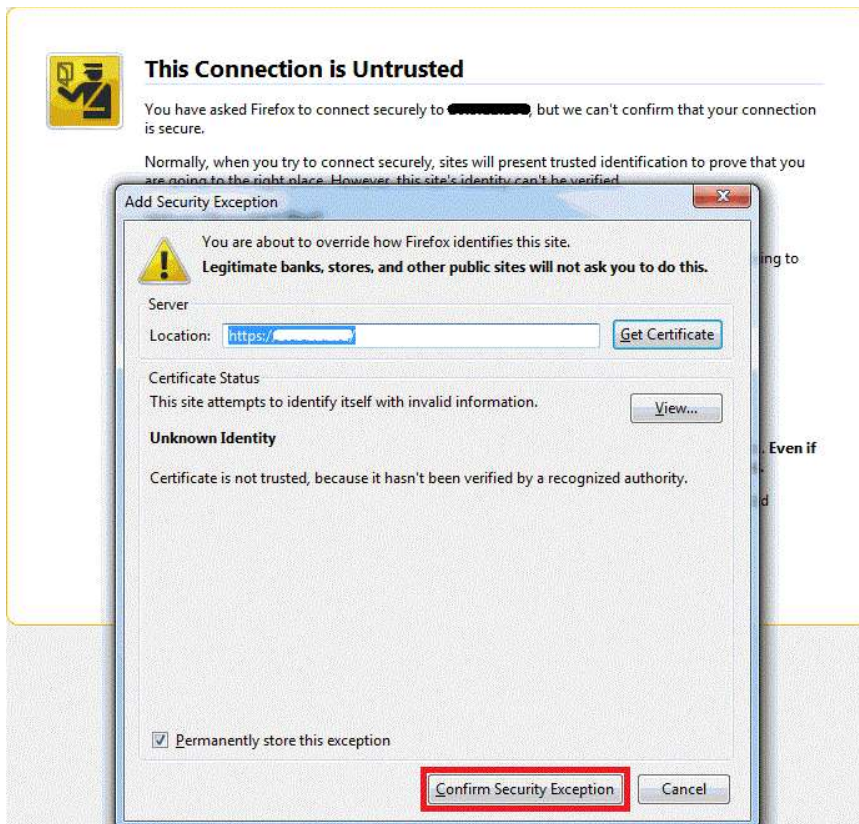

► **Technical Details**

▼ **I Understand the Risks**

If you understand what's going on, you can tell Firefox to start trusting this site's identification. **Even if you trust the site, this error could mean that someone is tampering with your connection.**

Don't add an exception unless you know there's a good reason why this site doesn't use trusted identification.

3. Click "Confirm Security Exception"

This Connection is Untrusted

You have asked Firefox to connect securely to [redacted], but we can't confirm that your connection is secure.

Normally, when you try to connect securely, sites will present trusted identification to prove that you are going to the right place. However, this site's identity can't be verified.

Add Security Exception

! You are about to override how Firefox identifies this site.
Legitimate banks, stores, and other public sites will not ask you to do this.

Server
Location:

Certificate Status
This site attempts to identify itself with invalid information.

Unknown Identity
Certificate is not trusted, because it hasn't been verified by a recognized authority.

Permanently store this exception

You should now be taken to the netreg.dbu.edu page.

Registering:

This process must be done from the device you wish to register.

1. In the box labeled "Username", enter your WebAdvisor username.

Note: This is the same username used for your WebAdvisor, Email, and Blackboard.

2. In the box labeled "Password", enter your WebAdvisor password.

3. After submitting the correct information, you should receive the following message:

4. Restart your computer

You should now be able to access the Internet via DBU's wireless network.

If you experience any problems going through this process or accessing the Internet after registering your device, please contact the Information Technology Help Desk at (214) 333-5500.
